Guidelines for Application

1. Group Leader:

In case of more researchers, the group leader is the person in charge of coordinating the project application for all participants. For the legal status of home institution, home institution country and position, use only the codes specified in the footnotes (1), (2) and (3), respectively.

2. Group Researchers:

Since these data have to be submitted to EC offices to obtain their approval, the list of names must be precise. Home institution should be specified for each researcher only if different from group leader's home institution (see also *General Information For Applications – Who can apply*).

3. Project Title:

Please do not use long titles and if possible indicate an acronym (max. 8 characters). You are not allowed to use acronyms that infringe existing trademarks, registered patents and other similar rights.

4. Experimental Setup of Interest:

State the existing experimental setup you intend to use or the name of the setup you intend to bring and install at MAMI. In the latter case, setup specifications must be included in the proposal description.

5. Duration of the Project:

Indicate the time needed to carry out the proposed project at MAMI.

6. Access Periods Requested under the Transnational Access Programme:

Indicate the researcher's name, the number of days that he/she will spend at MAMI and the number of visits at MAMI.

7. Curriculum Vitae of the Group Leader and a Short Description ...:

Attach CV of the group leader and describe the latest research activity you and/or your group carried out.

8. Description of the Project:

Describe with sufficient details the scientific and technical aspects of the project. Underline the goal of your project and the specific relevance of your proposal. Add references if necessary.

9. Comments:

Add any comment you think might be helpful to the user selection panel for the evaluation of your proposal.
